

TEAM
MH-139A
 GREY WOLF

WONDERFUL WHIRL

After competing in the U.S. Air Force Marathon 10K, Devin Soffy watches an MH-139A Grey Wolf (right) and UH-1N Huey land at Wright-Patterson Air Force Base in Dayton, Ohio. Replacing the Huey, the Grey Wolf will patrol intercontinental ballistic missile fields and transport U.S. government officials and security forces.

 Watch the
 Grey Wolf land.

As the MH-139A begins production, Boeing Global Services is partnering with Leonardo to develop custom training devices and courseware for the U.S. Air Force. In 2023, the team delivered the cockpit procedural trainer to Malmstrom Air Force Base in Montana. Additionally, the Air Force will receive a full crew simulator, an integrated aircrew system trainer, and 3D-image-based courseware that will give the crew an inside look at the aircraft.
